

U.S. Fusion Outreach Team

U.S. Fusion Community Website: USFusionEnergy.org

Presented by [Stephanie J. Diem](#) & [Harry Kelso](#)
Further co-leadership by [Arturo Dominguez](#)
Website development by [Sandbox Studio](#)
Illustrations by: [Ana Kova](#)

Public website initiated by U.S. Fusion Outreach Team

- US Fusion Outreach Team: *“Making fusion energy a reality by increasing awareness, interest, and funding for U.S. fusion energy research.”*
 - An informal group of scientists/faculty/students/staff/teachers/supporters interested in reaching out to the general public about fusion and plasma science
- CPP white paper led to broader community support “Support New Public-Facing Website: U.S. fusion community and FES should support the creation and management of a centralized website that would serve as the public face of the U.S. fusion community.” - CPP plan (page 119)
- Need reinforced by FESAC report (page 65) “**support the development of a new public-facing website** for plasma science and fusion”

The Future of Fusion

Engagement focused on informing the public, diversifying fusion workforce, K-12 resources

- Fundamentals provide introduction to fusion concept, approaches
- Latest fusion news, events, content for media and contacts
- Resources for Fusioneers
 - Searchable job database
 - Technical meetings, conferences
 - Map of universities, industry, national labs
- Monthly newsletter

Opportunity Type

Region

Education Requirement

Monaco/ITER Postdoctoral Fellowship Program

Postdoctoral
Req: PhD

ITER
St. Paul-lez-Durance (France)

Research Engineer/Scientist, Senior Research Engineer/Scientist or Principal Research Engineer/Scientist

Full-time Staff
Req: PhD

University of Illinois at Urbana-Champaign
Urbana, IL

Data Scientist

Full-time Staff
Req: Master's Degree

SHINE Technologies
Fitchburg, WI

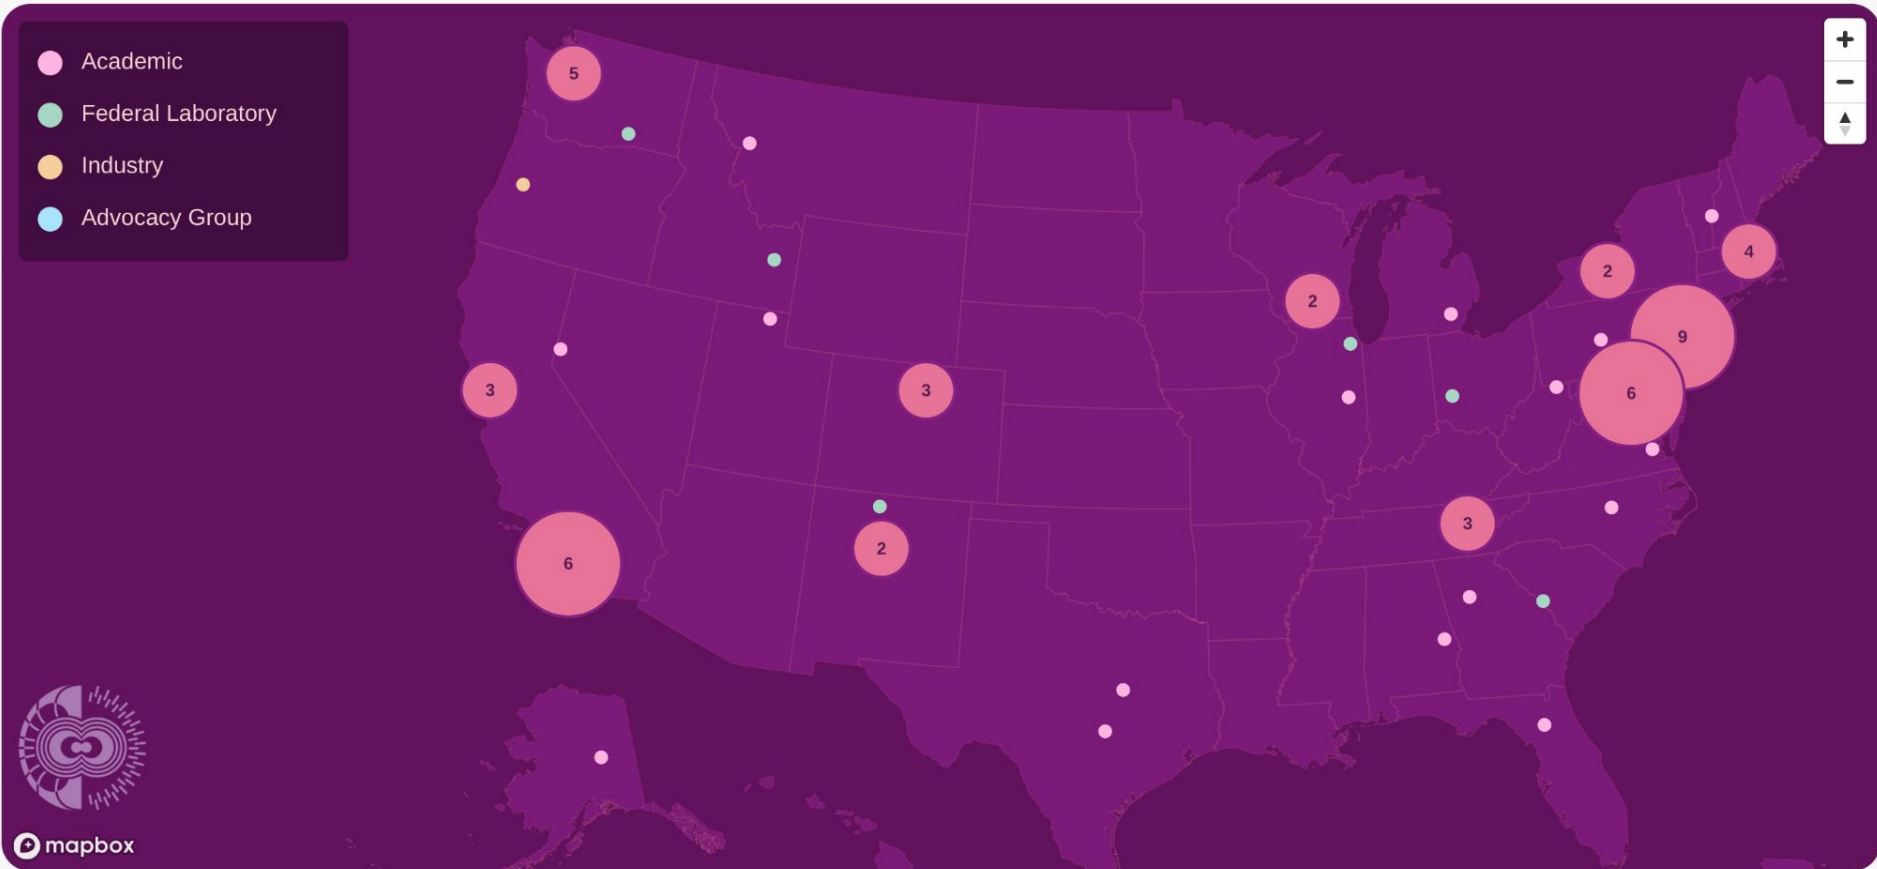

Project Manager

Full-time Staff
Req: Bachelor's Degree

SHINE Technologies
Fitchburg, WI
